

VULCAN

ELECTRIC SOLDERING TOOLS

- High-powered Soldering Tools, designed for fast soldering, with low operating cost.
- Tips are of finest forged copper.
- The "Hang" or balance good mechanics appreciate, plus light weight.
- Cool handles of selected birch, shaped to fit the hand.
- 6 ft. heater cord, with unbreakable rubber plug.
- Fireproof terminals.
- Heating elements easily replaced.
- Operate equally well on AC or DC.

Pygmy PENCIL TYPE

A very efficient tool for fine soldering of instruments, meters, gauges, small radios, etc. or any spots where space is cramped or there is little clearance. The cool,

tapering wood handle permits "writing grip." Flexible coil also assures coolness. Equipped with approved cord and unbreakable rubber plug. Standard tip is $\frac{1}{4}$ " but $\frac{3}{16}$ " or $\frac{1}{8}$ " tips are available, as well as special tips, bent to any angle or in various shapes.

Cat. No.	Watts	Tip	Weight	Length	List
Pygmy	25	$\frac{1}{4}$ "	7 oz.	8 $\frac{1}{4}$ "	\$5.10

CAT. No.	WATTS	TIP	LIST
20	50	$\frac{3}{16}$ "	6.90
30	60	$\frac{1}{2}$ "	9.40
40	90	$\frac{1}{2}$ "	10.30
50	130	$\frac{3}{8}$ "	12.20
60	175	1"	14.00
70	220	1 $\frac{1}{8}$ "	16.30
80	310	1 $\frac{3}{8}$ "	18.60
90	430	1 $\frac{5}{8}$ "	21.20
900	700	1 $\frac{3}{4}$ "	39.20

PLUG TIP — All parts replaceable

CAT No.	WATTS	TIP	LIST
* 25	50	$\frac{1}{4}$ "	\$6.55
35	100	$\frac{3}{8}$ "	10.30
453	150	$\frac{3}{8}$ "	11.20
45	150	$\frac{1}{2}$ "	11.70
55	200	$\frac{5}{8}$ "	12.10
* 75	300	$\frac{7}{8}$ "	15.80

*Heating element replaceable at Factory only.

SOLDERING TOOL HOLDER

Holds and guards the Soldering Tool and keeps the tip at soldering temperature as long as it remains in the holder. Has a cord and attached plug cap for connection to current and a receptacle for plugging in the Tool. A convenient adjusting screw sets the Holder thermostat to maintain proper temperature. AC only

No. 2100	without thermostat	\$4.95
No. 2100T	with thermostat	\$8.00

ELECTRIC SOLDER POTS

Both single and three-temperature Pots in a variety of sizes and wattages, all with cord and plug approved at Underwriters' Laboratories.

CAT. No.	WATTS			CAPACITY SOLDER APPROXIMATE	LIST
	HIGH	MEDIUM	LOW		
1700	200	120	80	1 $\frac{1}{4}$ lbs.	\$28.60
1702	250	150	100	5 lbs.	32.85
1704	500	250	125	10 lbs.	41.25
1600	150	Single Heat		14 oz.	9.90
1606	350	Single Heat		3 lbs.	11.55
1701	250	Single Heat		4 lbs.	21.10
1703	200	Single Heat		1 $\frac{1}{2}$ lbs.	16.10

Other sizes up to 6000 watts, single heat.

"DUREVER" Soldering Tips are pure forged copper, shaped to your favorite style, with a special metal coating that will preserve the original shape of the tip by protecting the copper from corrosion and oxidation. Will outlast copper tips, cannot amalgamate with solder, do away with the necessity for dressing or filing. Can be readily tinned without filing and hold their original shape. Circular on request.

JACKSON

STANDARD — PLUG TIP

Jackson "Standard" Electric Soldering Irons are scientifically designed for that "balanced feel" which reduces fatigue. All elements used in Jackson Standard Irons are made of the finest quality nichrome wire, wound on heat conductive cores and insulated with selected high grade amber mica. Equipped with 6 ft. approved heater cords and plugs. Stand included with every iron.

CAT. No.	WATTS	TIP	LIST
149	85	5/16"	\$5.65
145	100	3/8"	6.55
0145	125	3/8"	7.75
146	150	1/2"	9.30
147	225	5/8"	10.70
148	350	7/8"	12.55

COMET — PLUG TIP

Comet Irons are equipped with a 6 ft. approved Heater Cord and Plug. Heating element is made of high quality Nichrome Wire, wound with mica on a core. Handles are black finish. All irons are packed one in a box, stand included. 50 to a standard shipping container. All irons are made for 115 volts. If higher voltage is desired, there will be a slight extra charge.

CAT. No.	WATTS	TIP	LIST
65 P	65	1/4"	\$2.75
85 P	85	5/16"	3.25
100 P	100	3/8"	4.00
125 P	125	1/2"	4.90

DE-LUXE ELECTRIC SOLDERING PENCIL

A soldering pencil for all light work such as Radio, Television, Jewelry, Instruments and Electronics. Handle is cork-filled composition, 100% air cooled: 1/2" steel tubing, perforated for air cooling. Element is wound on a heat conductive core, for efficient heating. High grade mica and nichrome wire. Underwriters approved 6 ft. rubber cord and plug.

CAT. No.	WATTS	VOLTS	TIP	LENGTH	WEIGHT	LIST
230 D	25	115	1/4"	7"	3 oz.	\$3.45

STANDARD ELECTRIC SOLDERING PENCIL

Wood handle, rich black finish with cork sleeve. 1/2" steel tubing gun metal finish. Element is wound on heat conductive core. High grade mica and nichrome wire. 6 ft. rubber cord and plug.

CAT. No.	WATTS	VOLTS	TIP	LENGTH	WEIGHT	LIST
230	25	115	1/4"	7"	3 oz.	\$2.90

VULCAN "EVEN-DIP" SOLDER POTS

DESIGNED AND DEVELOPED BY SPECIALISTS
FOR PRINTED CIRCUIT SOLDER OPERATIONS

- 16 Crucible Sizes.
- High Fidelity thermostat control—Adjustable 150-600° F.
- Surface Temperature does not vary beyond $\pm 2^\circ$ F.
- Localized "hot spots" completely eliminated.
- Replaceable heavy-duty heating elements.

Send for free, detailed specifications.
